OCTOBER 2016

VERSION 5.0

ENVIRONMENTAL POLICY

SunRice is committed to managing its operations in an environmentally sustainable manner through continuous improvement in the environmental performance of all our activities.

Accordingly, SunRice will do all that is reasonable practicable to:-

- Identify the environmental impact of our operations and reduce that environmental impact through a program of continuous improvement;
- Understand and manage our environmental risks with the goal of minimising or eliminating those risks;
- Apply environmental management systems as part of our day to day operational practices as well as ongoing management reporting and control procedures;
- Actively work towards the prevention of pollution and waste reduction while exploring and implementing opportunities for energy conservation as well as re-use and recycling where possible;
- Work in co-operation with members of the industry, government bodies, suppliers and customers to promote the achievement of high standards of environmental care;
- Ensure that environmental awareness and engagement by providing suitable training;
- Set annual improvement objectives aimed at improving the overall environmental performance of the business;
- Engage with our customers, workers and shareholders on environmental issues and transparently communicating and reporting on our environmental performance;
- Meet or exceed the requirements of applicable legislation and other legal requirements as well as responsible consumer expectations.
